 Audiovisual equipment	 Floral decoration	 Photo-/videography	

If you have any questions, need assistance of advice, please feel free to contact us by e-mail at exhibitions@gielissen.nl or by telephone via +31 (0)40 235 3805.

PLMA Contractor Team
 Gielissen Interiors, Exhibitions & Events.

Stand packages Shell Scheme

Enhance the appearance of your stand with a turnkey solution from Gielissen that meets all your needs!

Make it easy for yourself and order one of our complete stand packages. The packages vary between basic and decorative eye-catchers for 1-,2-, 3- and 4-unit stands. We also distinguish between intermediate stands (1 side open) and corner stands (2 sides open). If you want a stand package, but you have a head stand, please contact us. So that we can make a suitable rearrangement.

Keep in mind that the content of the stand packages cannot be changed! You can, however, add additional items via our webshop.

Height of shelves in your stand

If shelves are included in your stand package, they will be placed at 100 cm and 125 cm from the floor up.

In case you need shelves to be placed at another height, please inform us by separate mail. On-site changes can result in additional costs and long waiting times.

Stand layout

Items of all stand packages will be placed as shown in the visual. You do not have to send a Stand layout in this case. Do you want items to be placed differently or have you ordered additional items in our webshop? Then we do need a Stand layout from you. We need your information to prepare all aspects of your order (incl. technical drawings for the electricians, stand constructors etc.). On-site changes can result in additional costs and long waiting times.

Place your order on time!

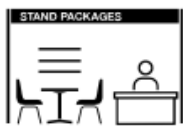

If you have a package with graphic elements, please also keep an eye on these deadlines. Go to Graphics and Printings for more information.

Brochures

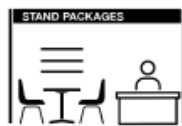

Below you will find the brochures of the stand packages (1+2 unit stands & 3+4 unit stands). For the correct prices, please always check our webshop.

Electricity

All stands will be delivered without electricity or lighting.

You need to order this by yourself in our webshop. Use the manual above.

- All main power supplies for electricity and all spotlights you order from Gielissen include power connection and consumption for the duration of the exhibition. You can order a main power connection for daytime and/or 24-hour power.
- Although the general hall lighting in the RAI exhibition halls is adequate, we recommend that you order additional stand lighting to best highlight your stand and products. Showcases with lights that you order through Gielissen will also be connected.
- Determine your required power: 1kW = 1,000 Watts
- Day power is switched on 1 hour before the start of the show until 1 hour after the closing of the show day. For safety reasons, electricity will be switched off immediately after the last showday on Wednesday 29 May.
- All main power outlets (including power strips and CEE plugs) will be placed on the floor of your booth, at the location you indicate in your Stand layout.
- Send us your Stand layout within 24 hours after finalizing your order to exhibitions@gielissen.nl.
- On-site changes can result in additional costs and long waiting times.
- Place your order on time!

Official electricity regulations - RAI Amsterdam

Stand builders with their own stand materials and electricity equipment must comply with the regulations. Make sure that own materials meet the set requirements. [Click here for RAI Electricity Regulations.](#)

On-site inspections will be made by official RAI safety inspectors. If the stand equipment does not meet the set requirements, it cannot be connected to the electricity network within the RAI building.

[Click here to go to the official RAI regulations.](#)

Manual

Please find below the "Manual - What should you think about when ordering electricity?" attached to this chapter.

Water

All stands are delivered without water. You must order your own water connection if needed.

Please note that it is not possible to order water everywhere:

- Hall 9, limited available. Are you in Hall 9 and would you like a water connection? Then please contact us. We would be happy to look at the possibilities with you.

- Hall 14, in the Europe Plaza (Pavillion tent in front of the exhibitions hall) is not possible.

- Water service ducts are located on several places in the hallway. Thus, there may also be one in your unit. When you order a water connection, the service duct that is located your unit will be used. Water service ducts are used for the supply and drainage of water. Water pipes (± 4 cm \varnothing) in this case can run right through your unit. We would like to advise to use / order a raised floor. See Raised floors.
- If you only need drinking water, it is also possible to rent a waterdispenser. Additional bottles and/or cups can also be added to your order. Electricity is required for a waterdispenser. Include this in the total electricity required and don't forget to order it.
- All connections are laid on the floor of your stand at the location you indicate in your Stand Layout. The connection will be made by RAI personnel themselves.
- Send us your Stand layout within 24 hours after finalizing your order to exhibitions@gielissen.nl.
- On-site changes can result in additional costs and long waiting times.
- Place your order on time!
- Your own brought unit will be connected by RAI personnel according to a connection schedule, please see Exhibitor manual > 5. Gielissen services > Water

Floor covering

As part of PLMA's Shell scheme stand you will receive grey carpet tiles.

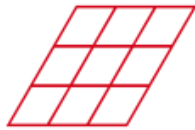

If you wish to cancel these carpet tiles (because you bring your own floor covering) or if you wish to order alternative floor covering with Gielissen, please always inform PLMA.

On PLMA's Exhibitor Portal you will find the Shell Stand Form where you can mention this.

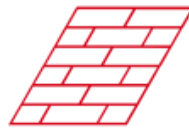

This way you can prevent unnecessary delays and additional costs during build up.

Graphics & Printings

The presentation of your corporate identity and products can be emphasized by using graphic elements. It is an easy and cost-effective way to customize and highlight your company's stand. Graphics come in all shapes and sizes. See our wide range below.

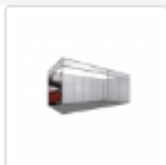

For more information(instruction, measurments and requirements) regarding the creation of your production files, please download the document underneath.

- All produced graphic expressions are on a single use basis.
- You can take your printed matter with you after the show closes.
- Make sure that it is immediately dismantled and properly packed. Note: the aluminium frames are on rental basis, you cannot take this with you, you can only take the print on fabric!
- Do not leave anything in your booth that needs to be kept. Disassembly personnel will assume that it is disposable.
- Gielissen does not keep any graphics & printings in storage.
- All graphic & print work is assembled at the location you specify in your Stand Layout. Please also use the name of your production file in your signed stand layout. Indicate on which wall element (and how high) graphics are to be placed.
- Send us your Stand layout within 24 hours after finalizing your order to exhibitions@gielissen.nl.
- On-site changes can result in additional costs and long waiting times.
- Place your order on time! After 30 April it is no longer possible to order graphics & printings anymore
- Always send your digital production files at the same time as your order, but no later than 16 April if you placed your order at Early Bird rate.
- If you order at the regular price, a deadline of no later than 30 April applies.
- We cannot guarantee timely on-site delivery for delivery after deadline.
- You can send your digital production files via www.wetransfer.com (Files up to 2GB / Free use).
- Use the following e-mail address: exhibitions@gielissen.nl, please include your stand number and company name in the subject and name the files the same as mentioned in the stand layout.

Please download the specifications :

Shell scheme

As part of PLMA's "Shell scheme" (system) booth you will receive:

- White laminated partition walls in system
- White laminated fascia construction with company name and booth number

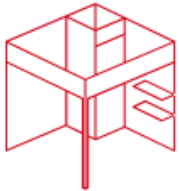

Multiple unit stands have an additional pole to support the fascia board and a ceiling plinth to the back wall.

In case you wish to cancel the fascia structure, you must inform the PLMA organisation. On PLMA's Exhibitor Portal you will find the "Shell Stand Form" where you can mention this.

This way, unnecessary delays and unforeseen costs during construction can be avoided.

Important

- All parts are placed at the location you specify in your Raster Form (drawing with stand layout). [Download Grid Form.](#)
- The technical working drawing is made based on your drawing.
- Send your grid form (stand layout) **within 24 hours** after placing your online order.
- We cannot process your order into a technical working drawing without a grid form!
- Changes on location only if possible.

Raised Floor

In RAI Amsterdam, electricity & water come from service ducts in the hall floor. It is possible that there is also one in your stand. When you order electricity and/or a water connection, the service duct where your unit is located will be used. In this case, electricity cables and/or water pipes ($\pm 4\text{ cm } \varnothing$) can run right through your booth. In this case we advise you to use a raised floor.

Audiovisual equipment

The presentation of your corporate identity and products can be emphasized by using audiovisual systems. It is an easy and cost-efficient way to customize and highlight your company's stand.

- The appliances will be delivered without electricity. Do not forget to order the required electricity in the webshop.
- LED screens will be delivered in the stand on a wall bracket or floor stand. Please choose the right variant in the webshop. Changes on site might not be possible any more or are at additional costs.
- You will find additional product details, including technical data, with the article in the webshop.
- The audiovisual systems will be placed in the stand on Monday 27 May. You must sign for receipt.
- The audiovisual systems will be collected from your stand no more than 1 hour after the closing of the exhibition. You must also sign for the return.
- You are personally liable for theft/damage if the stand is vacated before the audiovisual systems have been collected.
- All audiovisual systems are placed at the location(s) you indicate in your Stand layout.
- Send us your Stand layout within 24 hours after finalizing your order to exhibitions@gielissen.nl.
- On-site changes can result in additional costs and long waiting times.
- Send us your content, so that we can check and install it on the screen beforehand. This way, you avoid problems and do not have to waste valuable time on site.
- Always send your content at the same time as your order, however, **no later than 29 April** if you ordered your order at the early bird price or the regular price.
- Please send us your files via www.wetransfer.com
- For 'e-mail to', use mailaddress: exhibitions@gielissen.nl and include your stand number and company name in the subject.
- The approved content will be prepared for the LED screen you ordered.

Floral decoration

Beautify your stand with our flower and plant decoration. All items are on a rental basis. Go to the webshop and view our range of flower decorations and plants.

Our plants are delivered in anthracite gray decorative pots. If you prefer to receive a white pot, please let us know by e-mail or by telephone.

The glassware of the flower decoration may differ slightly.

If you have other wishes? Please contact us. We are happy to look at the possibilities with you.
